SKILLS

I did MSc in Computer Science from Quaid i Azam University Islamabad, Pakistan. As an MSc graduate, I have worked on a Real Time image processing system, which works on live camera footage and offline videos. Throughout my studies I have been doing high-level programming (Java, C++, Python). I'm currently working at PAF as a software engineer, and my focused language stack is C++. I also have expertise in web development (PHP) and databases (MySQL, SQLite, Access).

EXPERIENCE

Pakistan Air Force, Islamabad - *Software Engineer*

October 2021 - PRESENT

- C++ Development
- Qt Development (Qt-4)
- Socket Programming

EDUCATION

Quaid-i-Azam University, Islamabad - *M.Sc Computer Science*

2019 - 2021
